Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Other
Comments:	I do not understand this application. The works which are requested were largely carried out without planning permission and when retrospective planning was requested it was denied. The council issued reinstatement notices. These were then taken to appeal by the winners and they lost their appeal. Since then the reinstatement work has not been carried out. I do not see how they can again apply for what appears to be the same purpose.

Kind regards
