Horsham Planning Committee
Ref. DC/25/1155. Land East of Tilletts Lane.

I am a resident of Warnham we all know that there is a need for more affordable housing which these are not but it has to be in an area that is safe. I feel the new site that has been proposed at the top of Tilletts Lane is not

Lucas Rd. Friday St and Church St. are already very narrow due to parked cars which is the route most will need to use to get out of the village to the main road also this is the main route the village children walk to get to the village school it has surprised me that a child has not yet been hurt trying to cross the roads.

I suggest that other sites are more suitable ie Bell road or Station road as the extra cars would not need to use the already congested roads through the village as they would have direct access to the main road causing less stress and upheaval to all.

Yours Sincerely
