Once I have the above colours confirmed and description amended, I can send the consultation to the parish/conservation officer again. From this date, we would be looking at a 2–3-week EOT to allow for comments and amend my report.

Hi,

> This is the colour of the lettering on the illuminated sign. Brushed gold. It will just be a halo glow. The actual letters dont light up. I have attached a celine picture for reference of the light glow.

Hi Rory,

Ah that great thank you, I'll wait to hear regarding the colours. We don't need to amend the application form, I will just load this to the file as supporting information.

Following this confirmation of colours, I might need to ask for a slight EOT to allow the Parish to make further comment (should they wish to.)

Apologies, descriptions are made at validation stage. Please could I ask you to amend the below description we currently have, and I can change this for you:

Installation of 3x non-illuminated fascia signs and 1x non-illuminated free standing sign.

Many thanks

Hello,

I have copied in the client who can confirm regarding colours. Please also note the drawings indicate 1 illuminated sign, therefore I don't believe the description is correct. The client can send through details form the manufacturer for this sign.

Best regards

Good morning,

Please see below comments from the Parish Council, please could you confirm the missing details? I note that colours were not yet confirmed on the application form, have they been confirmed since applying?

Not all the questions in the application form have been answered, and there is no information regarding the colour of the lettering and the background.

Therefore, Horsham Denne NC ***objects*** *until further information is provided.*

Many thanks
