### Comments Details

**Commenter Type:** Member of the Public

**Stance:** Customer made comments in support of the Planning Application

**Reasons for comment:** - Design  
- Other

**Comments:** I understand that these owners are trying so hard to build a sustainable home for the future that looks to be as carbon neutral as possible and building in features that allow the occupants to live in their home for as long as possible should mobility become an issue.  
This type of development not only takes care of the environment but also has the possibility of keeping you in your own home

longer and reducing your reliance on the social and NHS services in the future.
