

LI.2.

WASHINGTON 28E.

SUSSEX XXXVII.14.

CHARACTERISTICS AND SYMBOLS FOR BOUNDARIES, &c.

W	Change of Boundary, indicating the point at which the character of a Boundary changes		Every parcel is numbered thus	27
D	Antiquities (Site of)	Site	Its area is given underneath in Acres, thus	4·339
P	Trigonometrical Station		Braces indicating that the spaces so connected are included in the same reference number and area	
R	Ministry of Transport Road Nos.	A270 R0057	For other information see Characteristic Sheet	

The Altitudes of Bench Marks and surface heights are given in Feet above the mean level of the sea at NEWLYN, and are based on the new primary levelling of 1912-21.

To refer these to the obsolete Liverpool datum, add to the figures shown—...0·8...feet | Note that the figure applies to this plan only and is only approximate to 0·2 ft. Further information on application.

Altitudes indicated thus (58. & 24·37) refer to bench marks on buildings, walls, &c. Those marked (+), preceded or followed by the height refer to surface levels.

Note:—To convert Decimal parts of an Acre into Roods and Perches, multiply by 4, this will give Roods and Decimals of a Rood, multiply this Decimal by 40 thus obtaining Perches and Decimals of a Perch.

N.B.—The representation on this map of a Road, Track, or Footpath, is no evidence of the existence of a right of way.

Scale 1/1000 being 25·344 Inches to a Statute Mile or 208·33 Feet to One Inch.
