Hi Nicola
I hope you are well.

Further to your email/letter dated 15th July relating to the above-mentioned planning application, I would be grateful if you could help me out with a query please.

I note that there are 3 SUDS basins proposed for the site. It would appear that the basins are going to be planted with grass, however we would like to know how long it will take for them to drain down after a flood event please? for example within 24 or 48 hours? or are they designed to hold water to a certain level on a permanent basis?

Thank you for your help. Once we have the above mentioned information, we will be able to send a full response.

If you have any queries, please do not hesitate to contact me.

Best Regards Mandy
