| Comments:            | I am writing in support of the application as I believe it will deliver four character homes in keeping with the attractive rural setting of the proposed development. The existing derelict buildings are increasingly dilapidated and the site is degenerating in to an eyesore. The site's previous use as a commercial yard generated considerable traffic and nuisance so change of use to accommodate residential dwellings will be a welcome |

improvement. There is a need for more family homes and this proposed development will bring a beneficial addition to Horsham District's supply of housing stock whilst providing a significant upgrade to the immediate surroundings and landscape.
