Subject: FW: Homes England - Land West of Ifield application

Dear Jason,

Thank you for contacting DfE Education Estates with regard to the planning application DC/25/1312 submitted on behalf of Homes England.

We are of course cognizant of the work that Homes England (HE) has been doing to develop the master plan for the Ifield development and have worked with HE to agree the area to be set aside within the development for a secondary school. There remains a need for, and the Department for Education remains committed to delivering the school scheme, and as such the Department is supportive of the HE planning application that is now before the Council for determination

Regards

Steve
