Natural England: Standing Advice:-

It cannot be concluded that existing abstraction within the Sussex North Water Supply Zone is not having an adverse effect on the integrity of the Arun Valley SAC/SPA/Ramsar sites. Developments within Sussex North must therefore must not add to this impact and one way of achieving this is to demonstrate water neutrality. The definition of water neutrality is the use of water in the supply area before the development is the same or lower after the development is in place.

To achieve this Natural England is working in partnership with all the relevant authorities to secure water neutrality collectively through a water neutrality strategy. Whilst the strategy is evolving, Natural England advises that decisions on planning applications should await its completion. However, if there are applications which a planning authority deems critical to proceed in the absence of the strategy, then Natural England advises that any application needs to demonstrate water neutrality.

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT

The application has been assessed on the basis of the submitted details, together with the planning history of the site and adjoining properties, available images and photographs supplied by the agent. These details were considered sufficient to allow the application to be properly considered and determined.

Character and Appearance

Policy 32 and 33 of the HDPF seeks to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

Policy HB3: Character of Development of the Horsham Blueprint Business Neighbourhood Plan states that – “Development is expected to preserve and enhance the Character Area in which it is located. The design of new development should take account of the local context and reflect the character and vernacular of the area, using architectural variety in form and materials, in order to avoid building design that is inappropriate to the Plan area. Innovation in design will be supported, however, where this demonstrably enhances the quality of the built form in a character area”.

Policy HB4: Design of Development of the Horsham Blueprint Business Neighbourhood Plan states that – “Development is expected to demonstrate a high quality of design, which responds and integrates well with its surroundings”

The application seeks planning permission for a hip to gable loft conversion including installation of a flat roof rear dormer. Many of the properties along Rushams Road have been extended with numerous examples of front, side and rear extensions over both ground and first floors and hip to gable roof extensions. It is also noted that there are examples of flat roof dormers within the street and locality, where this is considered to be an established feature within the built surroundings.

The dormer would include separation from the eaves and a set-down from the ridge, and through the use of matching materials would be largely seen against the backdrop of the main roof form. It is noted that there are numerous dormer extensions in the locality of varying form and design, and in this wider context it is considered that no particular visual harm would result from the rear dormer in this specific location. While the proposed roof extension would unbalance the existing semi-detached pair, it is considered that given the immediate context, no particular visual harm would result from this arrangement.

It is therefore considered, on the balance of all considerations, that the proposed roof extension would have an acceptable impact on the visual amenities of the locality, where this would not be out of keeping with the prevailing character and appearance of the site and wider surroundings. It is therefore

considered that the visual impact of the proposal is acceptable and would accord with the above policies.

Impact on Neighbouring Amenity

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

It is considered that the siting and layout of the proposed extension and the resulting relationship with adjoining properties would be sufficient to prevent any unacceptable harm to neighbouring amenity.

Water Neutrality

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the dwelling necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF, NPPF paragraph 180 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

Conclusion

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

Recommendation: Application Permitted

Conditions:

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Regulatory Condition**: The materials to be used in the development hereby permitted shall strictly accord with those indicated on the proposed plans and elevations plan drawing numbered 3381/06.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
