Ref: Planning application DC/ 23/1704

Dear Sirs

Further to my previous correspondence that I attempted to enter on line. I can only apologise as I am having continuous issues with my computer and have decided to complete this letter to clarify our concerns with the above planning application.

As our house is situated immediately across from the garden of Pine Cottage, we have to receive all the issues that come over from Pine Cottage. That is noise and smell from machinery and animals.

Secondly, the collection point for the sale of eggs etc is in as most dangerous position for general road traffic and this is in need of reorganising to prevent an inevitable serious road accident.

I feel it my duty to enter these as serious considerations for objection:

1. Noise, Disturbance and Smell.
2. Highway, Safety, Traffic and Parking.

If you have any issues with this letter, please call me to discuss at any time.

Yours sincerely
