Description of Proposed Works

Please describe the proposed works

This is a request to obtain consent from my local council to conduct roof repair on my property.

The proposed works include the removal of a leaking, non functional, purely cosmetic, roof covering (which is in the shape of a chimney) from the roof of my house.
The removal of this cosmetic roof covering will be replaced with roof tiles which will match the existing roof tiles in place.

Previous attempts by the property developer (Countryside properties) to repair the leaking roof have failed. (Between 2020 to 2021)
NHBC (National House Building Council) have been onsite and assessed and advised that the repair by the property developer has failed and the source of the new water ingress is from the false chimney.
This has also been verified by a local independent roofer.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☑ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

Have been advised by Giles Holbrook that:

The guidance offered by the Planning Portal assumes that the dwelling in question benefits from permitted development rights. In this instance the application of those rights is restricted by the imposition provided by Condition 14 attached to ref: DC/12/1651, which prevents those rights from being relied upon for works of extension and or alteration in the context of dwellings approved by ref: DC/23/1651. The removal of a chimneystack does constitute an alteration and building operation as defined.

The effect of the condition is to restrict the implementation of domestic permitted development rights for works of extension and/or alterations. This means that planning permission is required for these types of development which would not need planning permission in another context.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No
