Horsham Denne Neighbourhood Council
CONSULTATION COMMENTS

TO:	Horsham District Council – Planning Dept
SITE ADDRESS:	4 Hadman's Close, Horsham
PROPOSAL:	Fell 1x Monterey cypress (Works to Trees in a Conservation Area)
REFERENCE:	CA/25/0063
RECOMMENDATION:	Neither supports or objects to application.
SUMMARY OF COMMENTS & RECOMMENDATION: See main comments	
MAIN COMMENTS: Horsham Denne NC Tree Warden, Andrew Dickinson, has visited the site and his report is as follows: This multi-stemmed Cypress tree is a mature specimen situated in the far south eastern corner of the rear garden. It has a healthy crown growth and is presenting no dieback. The main stem has a small saw cut wound that has not caused any prolonged injury to the tree. The main stems have been cleared of branches up to a height of 8m, with the crown showing good, healthy growth. There does not seem to be any reason to fell the tree, unless there is an underlying problem that is not apparent. However, the tree is causing excessive shade and has little amenity value. Therefore, HDNC objects to this application.
