Subject: Redcliffs, Sunset Lane RH20 2NY in Conservation Area
Attachments: Redcliffs map showing Apple tree 1.pdf

[redacted] [redacted]

Hello Mr Bush,
Following my conversation with you this morning, I am writing to request permission/give notice for reducing the crown of the old apple tree in our garden. I attach a plan showing the location of our property and of the apple tree.
The apple tree is approx. 5.5 metres in height and of similar spread. We have been advised by our RHS qualified gardener that the tree would benefit from annual crown thinning and reduction. He proposes to reduce the height and spread of the crown by about 50cms and to thin the density back to the previous year's growth.
As I mentioned this morning, we made an online application several weeks ago. The proposed work will now be postponed until the winter months when it will be an appropriate time of year.

With thanks
Pam Hopper
