Address:	229 Horsham Gates Two North Street Horsham

Comments Details

Commenter Type:	Consultee
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	The Residents Association for blocks 2, 3 & 3Ext fully support this planning application. The proposed works are to ensure that fire safety is paramount for peoples safety. The completed works will also ensure many other factors are addressed, for example an improved EWS1 rating, enabling Leaseholders to sell to buyers who require to purchase with a mortgage from Lenders, who can sometimes be adverse to

lending whilst the building is classified as a risk. The completed works will significantly reduce, or possibly remove, the risks highlighted.

The comments from apartment 203 have not been provided accurately because this property, as well as 201 & 204 are unaffected by the proposed works.

Kind regards
