Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	<p>The proposed 1st floor extension design with a south facing balcony would result in properties and gardens to the south being overshadowed and suffering a loss of privacy. The submission has quoted consideration for those properties to the west but the revised window designs, locations and inclusion of a south facing balcony will have a direct impact to properties to the north, east, and south, resulting a loss of privacy for all. The 25 degree light angle diagram does not allow for adjacent properties with full length floor to ceiling windows, doors and</p>

outside space which will suffer a direct loss of light and privacy as a result of this planning submission.

Kind regards
