Mathew Porter I have no problem with the development proposed But as a resident of Sargent Way which since being opened to through traffic has become a rat run which you are fully aware of and the stopping of traffic using Co/Op car park as a cut through to Tesco's forcing more traffic to use Sargent Way before more houses building adding to an existing problem can you come up with a solution to solve the horrendous traffic noise speed amount which is 24/7 on Sargent Way we were completely misled when buying our home as there are so many of us no quiet countryside way of life for us
