Subject: DC/24/0629, ACCESS TRACK, DELSPRIDE SITE

Dear Kate,
We have set out below the facts about the access track and stable yard.
•the works were undertaken in mid 2021.
•the contractor was A. Hyatt Ltd. based at Dial Post. Unfortunately, this firm has ceased to trade after the demise of the Owner. However, it was the practice of the Contractor to attend night-time collection of road planings for County Council road improvement schemes, whereby cold milling machines produced the planings for yard storage by the Contractor. It is understood that this was the process adopted for this site.
•there are no transfer notes available.

Insofar as site conditions were concerned the area had been previously hard-cored, but with many years of natural vegetation on the surface.
This was scraped off and the planings laid and 'tracked-in' by tracked 360 degree excavator.
No hot works took place so no contamination occurred.
We hope that this provides the information that you require.
Kind regards,
Doug.
