REPRESENTATIONS AND CONSULTATIONS RESPONSES

Where consultation responses have been summarised, it should be noted that Officers have had consideration of the full comments received, which are available to view on the public file at www.horsham.gov.uk.

Consultations:

**Natural England**: Standing Advice:-

It cannot be concluded that existing abstraction within the Sussex North Water Supply Zone is not having an adverse effect on the integrity of the Arun Valley SAC/SPA/Ramsar sites. Developments within Sussex North must therefore must not add to this impact and one way of achieving this is to demonstrate water neutrality. The definition of water neutrality is the use of water in the supply area before the development is the same or lower after the development is in place.

To achieve this Natural England is working in partnership with all the relevant authorities to secure water neutrality collectively through a water neutrality strategy. Whilst the strategy is evolving, Natural England advises that decisions on planning applications should await its completion. However, if there are applications which a planning authority deems critical to proceed in the absence of the strategy, then Natural England advises that any application needs to demonstrate water neutrality.

**WSCC Highways**: No objection

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in 'severe' cumulative impacts on the operation of the highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 116), and that there are no transport grounds to resist the proposal.

Parish Comments:

No objection

Representations:

None received

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the

Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT:

The application has been assessed on the basis of a site visit and of the submitted details, together with the planning history of the site and adjoining properties, available images and photographs supplied by the agent. These details were considered sufficient to allow the application to be properly considered and determined.

**Character and Appearance**

Policies 32 and 33 of the HDPF seek to ensure that development promotes a high standard and quality of design in order to enhance and protect locally distinctive characters. The policies also seek to ensure that the scale, massing and appearance of development relates sympathetically with the built surroundings, landscape, open spaces and routes within and adjoining the site, including any impact on the skyline and important views.

The application seeks planning permission for the extension of an existing dropped kerb. The site currently benefits from a crossover that spans approximately half of the frontage. The proposal involves the demolition of a small section of the front boundary wall which does not require planning permission and the extension of the crossover by approximately 1.8 metres.

There are several dwellings in the immediate vicinity that benefit from driveways and vehicle crossovers. As such, the proposed arrangement is consistent with the established character of the area and is considered an expected form of development within this residential setting. The proposed extension would be comparable to similar arrangements found elsewhere on Billingshurst Road and would not result in any adverse impact on the visual amenities of the site or its surroundings

It is therefore considered that the visual impact of the proposal is acceptable and would accord with the above policies.

**Impact on Neighbouring Amenity**

Policy 33 of the HDPF states that permission will be granted for development that does not cause unacceptable harm to the amenity of the occupiers/users of nearby properties and land.

It is considered that the siting and layout of the proposed driveway and crossover, and the resulting relationship with adjoining properties would be sufficient to prevent any unacceptable harm to neighbouring amenity. No representation letters were received as part of consultation.

**Highways Impact**

Policy 41 of the HDPF requires adequate parking and facilities to be provided within developments to meet the needs of anticipated users.

Following consultation with WSCC Highways, the revised access arrangement is considered acceptable, and would not have an unacceptable impact on highway safety or result in severe cumulative impacts on the operation of the highway network.

**Water Neutrality**

There is no clear or compelling evidence to suggest the nature and scale of the proposed development would result in a more intensive occupation of the dwelling necessitating an increased consumption of water that would result in a significant impact on the Arun Valley SAC, SPA and Ramsar sites, either alone or in combination with other plans and projects. The grant of planning permission would not therefore adversely affect the integrity of these sites or otherwise conflict with policy 31 of the HDPF,

NPPF paragraph 180 and the Council's obligations under the Conservation of Habitats and Species Regulations 2017.

**Biodiversity Net Gain**

In accordance with the Biodiversity Gain Requirements (Exemptions) Regulations 2024, all householder applications are current exempt from the statutory requirement to demonstrate a 10% net gain in biodiversity.

**Conclusion**

The proposal is considered to comply with relevant local and national planning policies and is therefore recommended for approval.

**Recommendation: Application Permitted**

Conditions:

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Regulatory Condition**: The materials to be used in the development hereby permitted shall strictly accord with those indicated on the application form received 20.01.2025.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

NOTE TO APPLICANT
The applicant is advised that in addition to obtaining planning permission that they must also obtain formal approval from the highway authority to carry out the site access works on the public highway. The granting of planning permission does to guarantee that a vehicle crossover licence shall be granted.

Further dialogue with the Local Highways Area Office is required.
