Address:	34 Greenfinch Way Horsham

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Construction of the front-facing dormer window at 38 Wagtail Close has already commenced. We object to this application because it would overlook our rear garden and provide partial views into our home. This will undermine our privacy. 38 Wagtail Close is situated on higher ground than our garden and this noticeable elevation gives it a prominent position above our property. The impact would be exacerbated because the front dormer window is being constructed up to the apex of the roofline. This significantly increases its prominence and potential for overlooking us.

The rear is also being extended to build the loft to the apparent limit of its permitted development. The combination of front and rear construction will significantly alter the character of the property to our detriment. The front dormer is an unacceptable loss of privacy and we are concerned that the extent of the development will detract from the light in our garden and create excessive overshadowing.

Kind regards
