Re: Planning application DC/24/1826, Little Hookland, Rudgwick, RH12 3DJ

Drive photo 1, showing neighbours property (Clovelly) behind laurel hedge and existing yew tree in our property. The existing front boundary fence is to be replaced with post and rail fencing and then beech hedging.

Drive photo 2: view from drive entrance off Lynwick Street. Access to oak garage would be across block paved area.

Drive photo 3: drive entrance viewed looking out onto Lynwick street.  Existing oak framed garage can be seen in opposite neighbours front garden – one of several oak garages in Lynwick street.

Photo 4: view from neighbour's front garden (Clovelly) looking towards Little Hookland's eastern boundary,

Photo 5: westward view along Lynwick Street, showing Little Hookland eastern boundary. Laurel hedging will screen the proposed structure from street when travelling west.
