Comments:	<ul style="list-style-type: none"><li>- This is a small site with housing on all sides. The proposed development, with the increased height from the first floor extension, would be obtrusive and overshadow all neighbouring properties and gardens, including ours, and cause a loss of general amenity.</li><li>- Our garden and the rear of our house (including bedroom windows) would be significantly overlooked by the first floor windows and proposed balcony on the south elevation, causing a</li></ul>

loss of privacy.  
- With residential use, outside of the current commercial use hours, there would be increased light pollution from windows/doors at night time and increased noise from the extended use of the site, the balcony and the garden (which is right at the end of our garden and adjoins part of our boundary). This would be particularly intrusive at night time in the summer when we have windows open.
