Categories: Validation, H /N

To whom it may concern,
I have contacted the council as the landlord owner of 9 and 9A Norfolk Terrace (conservation area) and they have advised I write to you. Our tenant has requested that we trim the trees and holly bush back from the left hand side of the driveway as you look at the property. The trees have self seeded and the holly bush was planted but hasn't been maintained. I am requesting permission to trim this small area to give better visibility and for the tenants to enter the driveway more easily.
I attach photographs of the trees and holly bush and a street map of the property for your perusal. If you require further information please do get in contact.
I look forward to hearing from you.
Best wishes,
Katherine Tusler
