Dear Sir

Reference DC/25/0079

Change of use from equestrian to incidental residential curtilage and retention of patio (Retrospective)

The above application is to provide a garden area to the recently completed property, you will see that the approved plans had patio doors and Bi Fold doors to the rear of the property so it would seem that a modest rear garden would be required. This area also houses the underground sewage treatment plant and underground Propane tank therefore making it unsafe to be used for equestrian use

Yours faithfully

Sarah Millis
