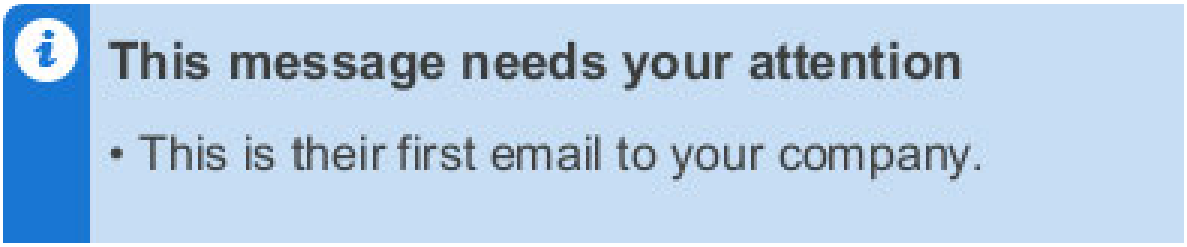
Subject: DC/24/1228 incorrect application

[redacted] [redacted]



To whom it may concern,

I spoke to someone earlier as on looking at the planning portal I found that someone had made the above application using our address in error. I did not make this application and neither did anyone at our address. On further I investigation over the phone to planning and yourselves, it is apparently as regards an oak tree that was in the front garden of a property next to ours but on a different road that has now been felled and the application was made by Courtney Green using our address in error. Please can our address which is 20 Pines Ridge Horsham RH12 1PZ be removed from the application and the correct address be added of Jakoranda on Farthings Walk be used.

Thank you for your assistance with this as it was rather a shock to find this on the portal.

Many thanks
Kind regards
Tamara Murray
