Good afternoon Nicola,

We would like to raise our concern for the above planning application, we do not feel that the infrastructure of the roads and the village will be able to sustain the extra traffic and people.

We also feel that there has been such extensive building in the surrounding area that we are rapidly losing the green areas impacting wildlife and peoples mental and physical health.

It is also of concern to us as we have a business in Bucks Green on the A281 which is already a busy road, so with the extra traffic may prove detrimental to us.

Kind regards
