Subject: DC/26/1228 - 4 Castle Rise, West Chiltington
Importance: High

Hi Halima,

I have received a further consult in respect of the amendments to the above application following my observations on the original landscaping proposals earlier in the month.

I can confirm that the revised site layout plan (Rev B) is an improvement in terms of future pressures on the off-site oak tree and the extent of new hardstanding proposed.

I therefore raise no objection on arboricultural grounds.

regards

Andy
