Subject: DC/26/1236 - Land South of Furze Common Road, Thakeham

Hi Alice,

Thanks for consulting EH on this reserved matters application.

The only comment I have to make is that from visiting site back in January 2024 it was apparent that a number of borehole had been drilled and installed on the site for water neutrality purposes.

As I assume these boreholes are no longer required will they be appropriately decommissioned?

Thanks

Kevin
