

63 Cassops Drive

Planning Received	
28 OCT 2025	
Name:	
Ref:	DC/25/1312

Objection to planning application DC/25/1312
WEST OF IFIELD

1.

A new hospital needs to be built in this area before any more houses .

January 2025 incident .In January 2025 East Surrey Hospital declared a critical incident due to being overwhelmed.

These houses will encourage thousands more people from London to relocate to this area creating an unsustainable situation.

2.

Transport infrastructure plan is not sufficient for the influx of cars into the area .There is no evidence base that people will use sustainable transport .A full Crawley western relief rd is needed before houses are built .

Questions still remain as to the impact of Gatwick expansion will be on the roads of Crawley .
Based on these facts the development should be refused .
