Categories: Comments Received

Dear Ms. Penne,

We live at 4 Beverley Road Henfield.

For some reason we did not receive notification of the above planning application for which comments are invited by 30th April 2024. Our neighbour from No. 6 Beverley Road drew our attention to it two days ago.

As we understand it the proposed changes will affect us visually, but tangentially,

There is no doubt that the residents of No.6 will be directly affected if the proposal as it is should be approved. They will suffer a complete loss of privacy because the house will be directly overlooked from the proposed two dormer windows in the house directly opposite. Both the bedrooms and the living areas will be exposed to a great extent. It will necessitate closing the blinds to maintain a degree of privacy. This naturally means an unreasonable curtailing of natural light.

The fact that Beverley Road is narrow and thus the properties are in close proximity should not be ignored. This can only emphasise the potential loss of privacy to the residents of No. 6 Beverley Road.

Yours Sincerely
