| Comments: | I am concerned that although this application states the accommodation is temporary this application will then go to retrospective for change of use to permanent dwelling which will then lead to further development. Access to the site is limited. The |

application doesn't state how many horses will be kept there which for the horses welfare is vital. The applicant has continued to seek permission for various changes either via retrospective or new applications. I am concerned that this application will lead to further development of extra 'barns' and accommodation. Concerns relating to wildlife and animal corridors were submitted in previous objections as was light pollution. These worries are still viable.

Kind regards
