REMARKS:

Hi Jason

Please click on the links in this email to download our response to the EHO's comments on the discharge of OPP Condition 18 for the eastern part of Mowbray Phase 2.

This includes a comment/ response schedule addressing each comment in turn alongside the plans/ information as referenced in the responses.

We trust this addresses the comments.

L&G would be pleased to walk Phase 2 with the EHO to look at all these points on the ground (will likely take about 2 hours to walk) and / or arrange a meeting with our consultant GESL to run through the more technical matters and future testing requirements.

Many thanks

Joyce
