### Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	<ul style="list-style-type: none"><li>- Design</li><li>- Highway Access and Parking</li><li>- Trees and Landscaping</li></ul>
Comments:	<p>It is very difficult to comment when all that is shown on the map is a rectangle.</p> <p>Access would be a problem unless from Hampers Lane as the road is now very busy and potentially dangerous.</p> <p>Before all the work started in the area this site was known for breeding Nightingales and for Sand Martins which also breed in the sand quarry banks forming a colony.</p>

The site overlooks our property and I would question is the land stable enough to support this project as we suffered from subsidence in 1991 and 2001.

---

Kind regards
