Your Ref. DC/25/0629

For the attention of Emma Parkes
Head of Development

Dear Madam

Planning Received

09 MAY 2025

Name:

Ref: DC/25/0629

Today I received three identical letters regarding the second part of Novartis Development or should I say mass housing. What a waste of money on postage no wonder our Council Tax is going up and up!

Photo of letters below.

This was a surprise as I didn't receive anything regarding the first phase and was only alerted by a neighbour who managed to inform the whole of our road about this plus she personally informed residents in Parsonage Road opposite the Novartis site who also had not been informed. The objections of course had to be in before the Easter holiday with not a lot of time once we found out about the application.

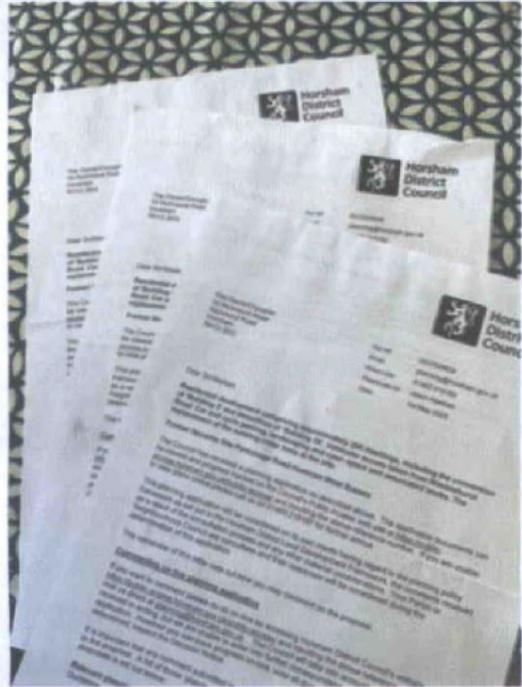

Can't begin to imagine the traffic that will back up to the railway crossing - bad now and backing down Wimblehurst Road quicker to drive down Hurst Road and over railway bridge - many more miles of course !

Of course we all know this is a "done deal" and whatever objections are raised will mean nothing but I will try and negotiate the always difficult web site to put in an objection even though I know I am wasting my time but you have to try.

Not long now until Crawsham (East and West Mowbray plus Giant Incinerator, Warnham Station house and with the 800 houses proposed on the Horsham Golf Park site Horsham/Southwater one amorphous mass of houses with our local hospital "East Surrey". The clue in the name as to how near it is to Horsham.

Yours faithfully

[REDACTED] 10 Richmond Road, Horsham. RH12 2EG
