[redacted]

Sorry for the omission on the application. The reason for the works is for maintenance of the highway and to discharge our duty of care. The 6m crown lift is to clear high sided vehicles and the crown reduction of 2m is to control the overall spread due to the close proximity of the houses. Furthermore Oak number 10100002 opposite no.6 has structural issues in the scaffold limbs that I believe would be best managed by crown reduction.

Regards
