Comments Details

Commenter Type:	Consultee
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment - Privacy Light and Noise
Comments:	The application is wholly incorrect. [redacted] The caravan was purchased in June '18 and was removed from site on 10/12/24. Bullet pointed below are the incorrect / misrepresented statement from within the application: - the caravan has never been independent of the lodge /static - it has never had running water, heating, bathing or cooking facilities; - the picture submitted shows that there is not water connection by hose or water butt and no waste water collector, which further proves that there is no running water; - there are no bathing facilities within the caravan, so bathing & personal hygiene have

been undertaken in the static caravans bathroom;
- as the caravan is aged it was believed that it would be unsafe to use the gas, therefore not possible to cook or use the heating. Any cooking was done inside the static;

[redacted]

[redacted]

The garden is very small and the addition of an additional fully independent dwelling would over develop the area far beyond reasonable limits.

Kind regards
