Reason for Lawful Development Certificate

Please indicate why you are applying for a lawful development certificate

◯ An existing use
⊘ Existing building works
◯ An existing use, building work or activity in breach of a condition

Being a use, building works or activity which is still going on at the date of this application.

Description of Existing Use, Building Works or Activity

Please fully describe each existing use, building works or activity for which you want the lawful development certificate. Where appropriate, show to which part of the land each use, building works or activity relates

This application is made for a Lawful Development Certificate in respect of two existing buildings at Amber Wood.

The grounds for the application are that both buildings are longstanding operational development which were substantially completed many years ago and have remained in place continuously since construction.

Building 1 was erected approximately 6 years ago and has been continuously used for storage purposes ancillary to the management and maintenance of the woodland.

Building 2 was erected approximately 15 years ago and has been continuously used in connection with woodland management activities, including providing shelter and rest facilities for volunteers assisting with conservation and land management works. Any occasional overnight stays have been incidental to that use and not as a separate permanent residential use.

The buildings are established features on the land and are lawful through the passage of time and their continued existence and use.

- ☐ The change of use to use as a single dwelling house began more than four years before the date of this application.

Please state why a Lawful Development Certificate should be granted

A Lawful Development Certificate should be granted because the application relates to two existing buildings that were substantially completed more than four years before the date of this application and have remained in continuous existence since construction.

Building 1 was erected approximately 6 years ago and has been used for the storage of timber, tools, equipment and materials associated with the management and maintenance of Amber Wood.

Building 2 was erected approximately 15 years ago and has been used in connection with woodland management activities, including providing shelter, rest facilities and occasional overnight accommodation for volunteers assisting with conservation and land management works.

Both buildings are longstanding features of the land. Their existence and use are established through the passage of time, and on the balance of probability the development is lawful.
