Comments summary

Dear Sir/Madam,

Planning Application comments have been made. A summary of the comments is provided below.

Comments were submitted at 01/10/2025 9:06 AM.

Application Summary

Address: Land West of Ifield Charlwood Road Ifield West Sussex

Proposal: Hybrid planning application (part outline and part full planning application) for a phased, mixed use development comprising: A full element covering enabling infrastructure including the Crawley Western Multi-Modal Corridor (Phase 1, including access from Charlwood Road and crossing points) and access infrastructure to enable servicing and delivery of secondary school site and future development, including access to Rusper Road, supported by associated infrastructure, utilities and works, alongside: An outline element (with all matters reserved) including up to 3,000 residential homes (Class C2 and C3), commercial, business and service (Class E), general industrial (Class B2), storage or distribution (Class B8), hotel (Class C1), community and education facilities (Use Classes F1 and F2), gypsy and traveller pitches (sui generis), public open space with sports pitches, recreation, play and ancillary facilities, landscaping, water abstraction boreholes and associated infrastructure, utilities and works, including pedestrian and cycle routes and enabling demolition. This hybrid planning application is for a phased development intended to be capable of coming forward in distinct and separable phases and/or plots in a severable way.[cr]

Case Officer: Jason Hawkes

Comments Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:

- Highway Access and Parking
- Loss of General Amenity
- Other
- Overdevelopment
- Privacy Light and Noise
- Trees and Landscaping

Comments: My husband and I strongly object to the proposed development which will destroy critical ecological resources including trees, woods, streams, farmland, removing habitat for endangered wildlife already under threat, lead to serious ecological degradation especially associated with depleting the water table through bore hole extraction. This area is already over populated with people, there is not enough infrastructure including roads, water, healthcare, and lack of management of rivers and flooding. The UK is already one of the most depleted countries in Europe, and this development will serve another terrible blow to our countryside and wildlife which we need for clean air, wellbeing, biodiversity, and to help against climate change

Kind regards
