Planning office

I bought my [REDACTED] house 67 carter drive from brand new i was the first resident in in my phase ..via saxon weald i asked the question at the time of purchase if it would ever be a through road .the answer was a firm NO !! .My conveyencing solicitor didnll find anything in searches about a through road so it was never on the plans. And i have never recieved anything with regard to any road changes ?

If this goes ahead you will be overloading an already very dangerous situation on roads not fit to take excess traffic .how this estate ever past planning anyway is beyond me

The roads are too narrow and people drive to fast it will be a catastrophie .

The whole area has been very badly planned without anyone looking and seeing the future problems . Parking is a major issue on wickhurst green so to have a further rat run is a huge distster when it could be simply rectified by reopening the old 281

Regards from a very unhappy carter drive resident
