Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other - Privacy Light and Noise - Trees and Landscaping
Comments:	The owners have cut down the border between our property and theirs, and due to the stream and their property being on higher ground than ours we are unable to build/grow a border our side so they can (and do) look into our property/garden at will, including when children are playing in the garden. The proposal includes large windows/bi-fold doors looking directly at our property. We would support the proposal if a boundary was erected again so

they can not continue to invade our privacy, or if the large glass doors were not facing our property.

Kind regards
