Good morning Hannah,

I hope this email finds you well. Hannah I am surprised and shocked to learn of the potential building in the playing fields. Our kids (and many more generations to come) have enjoyed using the fields and I believe that by allowing this building to go ahead this will be lost. With regards to the Relevant planning considerations please see below:

1. Character - The additional building will completely change the character, feel and ambiance of the area.
2. Loss of privacy - The occupants of the new building will basically be looking directly into our lounge and ground floor bedroom windows.
3. Parking - Parking spaces are already very limited, I feel by adding an additional residence this will only exacerbate the current situation.

Apart from the above listed considerations I would just like the council to know that we bought in this area because of the open space [REDACTED] and by allowing this building to go ahead this will be lost.

Kind regards
