Comments:	I visited the site on 26th July 2024 in my capacity as a Dragonfly Ambassador for South Downs NP to advise on nature recovery. My visit was to conduct a survey for the British Dragonfly Society and comment on how to progress & improve it for wildlife & nature. I was very pleased to find decent-sized new pond by the Adur which was already being colonised by 3 species. I support it as an assett to improve wildlife biodiversity in Sussex.

Kind regards
