### Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	<ul style="list-style-type: none"><li>- Design</li><li>- Highway Access and Parking</li><li>- Loss of General Amenity</li><li>- Other</li><li>- Overdevelopment</li><li>- Privacy Light and Noise</li><li>- Trees and Landscaping</li></ul>

Comments:

I wish to object to this application on the grounds that:

- 1) I understand that the area is already the subject of an Article 4 Direction (ART 4044) which was introduced to prevent detriment to the visual amenities and rural character of the area
  - 2) the application is contrary to the HDC Planning Framework and cannot be considered appropriate given its size and scale. It is also in a Flood Zone
  - 3) the site is some way from the public highway which is itself narrow and winding
  - 4) the access track is a public right of way, used by pedestrians to enjoy this part of the beautiful West Sussex countryside. There is an increased health and safety hazard to these walkers as a consequence of the increased volume of traffic which would create increased light, noise and air pollution
  - 5) the character of the surrounding, open countryside would be damaged by such a development
  - 6) I am concerned about the inevitable negative impact on the local flora and fauna as well as the requirement to fell trees and change the beautiful landscape
  - 7) what precedent is potentially being created here, opening the floodgates to similar applications for "temporary" dwellings for workers where animals are kept remotely?
- 

Kind regards
