Name:
Ref: DC/25/1077

Dear Hannah Darley

25 July 2025

Re: DC/25/1077

Two major issues with above planning application.

- 1) It clearly states that it is a proposal for development within an existing garden curtilage but a site visit will confirm that it is a field.
- 2) The site plans show the line of existing buildings and indicate previous development . Again a site visit will confirm that no previous buildings have ever been constructed within the field.
