Hi Mark,

Sorry for the delay getting back to you on this. I have reviewed the RMS and have the following comments to make.

1. The RMS needs to be a statement of positive intent/action, any reference to 'should' in the context of the works that need to be undertaken need to be changed to 'shall'.
2. We also note that the following is stated in section 3.2 'It is recommended that the following is undertaken', similar to the above this needs to be changed so it reads as a statement of positive intent/action and not a recommendation.
3. The validation of imported soils is accepted, following the reduced dig exercise it is however not clear how the environmental consultant will know if all impacted soils have been removed – we would be grateful for clarity on this in the RMS.

Kind regard

Kevin
