| Stance: | Customer objects to the Planning Application |
| Reasons for comment: | - Highway Access and Parking<br>- Overdevelopment<br>- Privacy Light and Noise |
| Comments: | The proposed area is part of the Storrington Green Gap and is currently a haven for wildlife. It seems likely that the only access will be down one narrow shared access path or through adjacent fields. It also seems likely that the development will set a precedent for future development of this nature and, in effect end up being a permanent caravan site, so the 'temporary land use" in the application could be misleading. |

Kind regards
