Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Loss of General Amenity - Other - Overdevelopment - Privacy Light and Noise
Comments:	1. The preposed development will impact on the character of the area as it does not align with the existing surroundings . 2. Increasing the ridge height to create an addition floor , will

impact on neighbouring properties and privacy is of significant concern. The development is on an elevated site compared to properties on the southern boundary ,so they also will be overlooked.

3. There is a shortage of bungalows and this needs to be taken in consideration.

Kind regards
