Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	With regard to the comments made by Mr Rix ... I confirm the impact within the setting of Bulls House, the listed building to the south of the site, will be neutral. Bulls House will be experienced in much the same way with limited intervisibility with the proposed development. The other impacts of background noise, artificial light and the perception of activity will not be perceptibly greater than the current situation.

I'm afraid I strongly disagree. I know I'm banging my head against a brick wall here, but having two extra homes, with two extra families and the noise and light they create directly backing onto us with first floor balconies overlooking our property WILL have an impact on us living at Bulls House. In the meeting, it was stated that we have one window to the north side of Bulls House. We have, in fact, four, plus a glazed door.
Mr Rix has never visited Bulls House. He has never spoken to us, how can he possibly make such a statement.

Kind regards
