Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other - Privacy Light and Noise
Comments:	[redacted] My wife and I tried to explain the problems with the side window that overlooks into our garden patio. we looked at the photos of the site, one of the photo show our rear patio as we assume the photographer has taken the picture from standing on the ground. As we know the no 3 property is one feet higher than our ground and means the top of the window is over one feet higher than top of the fence to create no privacy. Today, I was out in the road and look at the front of no 3 noticed the top frame of the windows in front of house are much higher than the top of the fence on my boundary and therefore the proposed the top frame of the side window on the same horizontal line with the front windows. [redacted]

[redacted] thank you

Kind regards
