Subject: Support for Planning Application DC/25/0397 – 1 Smithbarn, Horsham

Categories: Comments Received

Dear Planning Team,

I am writing in relation to the planning application at 1 Smithbarn, Horsham, RH13 6DR (Ref: DC/25/0397) concerning the proposed side and rear extensions, front porch extension, external finishes, and relocation of the boundary fence.

I am generally supportive of the proposed development, as it appears well-considered and in keeping with the character of the surrounding properties. However, I would like to suggest one minor amendment to the proposed boundary fence layout.

As a nearby resident, I believe that a curved fence line, rather than the straight fence line currently shown in the plans, would be more visually appropriate. A gently curving boundary would better reflect the existing shape and flow of the surrounding landscape and boundaries, helping the new fence to blend in more harmoniously with the street scene.

This small adjustment would, in my view, enhance the aesthetic integration of the development without compromising function or security.

I feel improvements will be beneficial to the overall visual coherence and moderation of the neighbourhood.

Thank you for the opportunity to comment. I hope this suggestion will be taken into consideration during the planning determination process.

Yours sincerely,
