1. I have tried on numerous occasions to view plans & have also been into Horsham office reception, Unfortunately even the receptionist was unable to bring up the plans As I have been unable to see the proposed request. My objections would be :-
1. If what has been proposed is to move the boundary fence further out for a second time towards the public footpath, & the small grassed triangular area which another tree was also removed recently (making 3 in total) these were planted by Croudace builders & gave an open plan feel Which was one of the reasons for my purchase of 22 Stoneybrook
3.The row of terraced houses have moved their fences up to rear access path, making it impossible for me to maintain the side of my house for any work that needs to be carried out, This also would mean should a wheel chair user need access to rear of gardens it would not be possible!!
Please look into this matter as its causing me concern
Thank You
[redacted] 22 Stoneybrook
